Most businesses I work with already have the tools. What they are missing is the system that connects them, so no lead waits and nobody has to remember the next step. 4 years building that system in GoHighLevel, n8n, Make, and Zapier for real estate, property management, fitness, chiropractic, advisory, and media businesses.

EXPERIENCE

Workflow Automation Specialist

Current

Freelance · Upwork and OnlineJobs.ph

- Cut manual processing by about 80% by moving client handoffs into n8n and Zapier workflows.
- Put 8 AI agents into production, including a Retell AI voice agent that checks the real calendar and books the appointment during the call.
- Built Your Power Suite, a GoHighLevel membership site for a national community of women in real estate and mortgage.

System Builder / Automation Expert

Long-term rental

Press Haven Homes

- Built and ran the operational workflows behind tenant relations, lease management, and daily coordination.
- Standardized recurring admin processes for the CEO so nothing depended on manual follow-up.

Automation Specialist

Short-term rental

Stay Classy Homes

- Owned the guest communication and reservation pipeline end to end, from inquiry to check-out.
- Coordinated maintenance, cleaning, and vendor scheduling as one repeatable process across listings.

SELECTED SYSTEMS

Lead Routing and CRM Intake

GoHighLevel · Webhook · Voice AI

Before: form leads sat in a shared inbox until someone noticed. **Now:** each one is tagged, emailed, texted, and called by an AI voice agent, then routed by outcome.

AI Chat Agent

n8n · OpenAI · Vector store

Before: a person read every chat to sort routine questions, bookings, and urgent issues. **Now:** an agent classifies and replies instantly, and only real issues reach a person.

Voice AI Booking

Retell AI · n8n

Before: booking a call meant someone checking the calendar live. **Now:** the voice agent qualifies the caller and confirms a real slot during the call.

Lead Enrichment Engine

n8n · Apollo · Apify

Before: Apollo searches, exports, and lead scoring done by hand. **Now:** one plain-language request returns scored leads with email and website, ready for outreach.

WHAT CLIENTS SAY

“He created custom workflows that perfectly fit our business needs. Professional and results-driven.”
