wovie-certified.vercel.app

Certified GoHighLevel Expert And *AI Automation Builder*.

I build systems that organize leads, automate follow-up, and simplify business operations. 4 years designing and building automations on GoHighLevel, Zapier, Make, and n8n, connecting the tools a business already uses so the work happens without anyone chasing it.

EXPERIENCE

Workflow Automation Specialist

Current

Freelance · Upwork and OnlineJobs.ph

- Designed and implemented n8n and Zapier automation workflows, reducing manual processes by about 80%.
- Built AI chat and voice agents (OpenAI, Retell AI) for lead qualification, appointment booking, and inbound calls.
- Set up lead sourcing and enrichment pipelines with Apollo and Apify, and automated publishing to WordPress.

System Builder / Automation Expert

Long-term rental

Press Haven Homes

- Built and ran the operational workflows behind tenant relations, lease management, and daily coordination.
- Standardized recurring admin processes for the CEO so nothing depended on manual follow-up.

Automation Specialist

Short-term rental

Stay Classy Homes

- Owned the guest communication and reservation pipeline end to end, from inquiry to check-out.
- Coordinated maintenance, cleaning, and vendor scheduling as one repeatable process across listings.

SELECTED SYSTEMS

Lead Routing and CRM Intake

GoHighLevel · Webhook · Voice AI

Every form submission is tagged, gets an opportunity, email, SMS, and an AI voice call, then is routed by outcome. **Every lead is contacted right away.**

AI Chat Agent

n8n · OpenAI · Vector store

Classifies each incoming message and routes it to an instant reply, the booking flow, or a flagged escalation. **Only messages that need a person reach one.**

Voice AI Booking and Call Flows

Retell AI · n8n

Voice agents greet and qualify callers; an n8n backend checks real calendar availability and confirms the slot during the call.

Lead Enrichment Engine

n8n · Apollo · Apify

Turns a plain-language request into an Apollo search, scrapes results with Apify, and scores each lead before outreach.
